

## DG0427 4.0 – 27.0 GHz Zero Bias Detector

### FEATURES

- ❖ Excellent Sensitivity
- ❖ Excellent Flatness vs. Frequency
- ❖ Mounting Hole Option
- ❖ Wide Frequency Range

### SPECIFICATIONS

4.0 – 27.0 GHz Zero Bias Detector	
Model Number	DG0427
Frequency Range	4.0 – 27.0 GHz
Sensitivity	1300 mV/mW
Flatness vs. Frequency	$\pm 1.6$ dB
TSS	-45 dBm
Maximum Input Power	+20 dBm
Connector Type	SMA Female
Impedance	50 $\Omega$ Nom.

Note 1. All the detectors are negative polarities. Positive polarities is available on request

Note 2. The sensitivity is measured into an open circuit load (>10k Ohm)

Note 3. Other frequency range available on request

Note 4. Operating Temperature: -55 °C To +125 °C

Storage Temperature: -65 °C To +125 °C
