

## Narrow Band SP4T

### FEATURES

- ❖ Low Insertion Loss
- ❖ Low VSWR
- ❖ High Isolation
- ❖ TTL Compatible Logic
- ❖ Miniaturized Package Available
- ❖ Wide Operating Temperature Range

### SPECIFICATIONS

Narrow Band SP4T

S4R3740-50T100	37-40	4.0	50	100	2.1:1	R	4

Note 1. Type R is for Reflective switches and type A is for Absorptive switches.

Note 2. DC requirement: +5 V at 240 mA, -5 V at -100 mA.

Note 3. Miniaturized or customer outline package available on request.

Note 4. Other customer electrical specification available on request.

Note 5. TTL compatible logic control, Logic "0" J1-J2 on, "1" J1-J3 on.
